Home of the Spartans

November 18, 2007

Dear Spartan Wrestling Community,

It is with great pleasure and excitement to be kicking off the 07-08 wrestling season coaching the Spartan Wrestling Team. Many people in the community have been waiting for this group of young men to compete for the same team for a long time. The time has come for this team to be among the best in the area. They have worked hard in the off-season with lots of lifting and summer wrestling. Their preparation this season will enable each athlete to perform at their best. This team has a great deal of talent and experience. This is a true combination for success. With this success the Spartan wrestling team hopes to pin down a CVC and MCT title this season.

Wrestling is an extremely demanding sport and takes the kind of commitment and dedication most people are not use to. I believe we have these committed and dedicated individuals. After graduating only 2 varsity wrestlers last year, we have 12 returning starters and 3 outstanding freshmen to compete for starting positions. This season schedule has reflected my confidence in this team's talent. I am passionate and dedicated to the sport of wrestling and will create an environment for these young athletes to grow and reach their athletic potential.

Lastly, the Spartan coaching staff appreciates all the support the wrestling program has received from the booster club, fans, community, and administration. With their backing, we are confident that we can take this team to the next level. Thank you once again for supporting the Steinert High School Wrestling Program.

"Your enthusiastic support is great motivation for our wrestlers"

Yours in Wrestling,

Coach Jankos
